

STREET LIGHTING MEETING

Wednesday, August 16, 2006 • 7:30-9:00 p.m.
Marlborough School, 250 So. Rossmore Ave.

THE PROBLEM: Insufficient or inappropriate residential street lighting on some streets from Arden to Wilton, Beverly to Wilshire.

THE SOLUTION: New, replacement, or additional ornamental concrete lighting fixtures ... about 206 of them!

THE BENEFITS: Improved quality of life, greater public safety, and higher homeowner property values.

Everyone is welcome to attend this forum to learn how the community can address existing problems and to discuss the costs and benefits of improved street lighting. Representatives of the City of Los Angeles Bureau of Street Lighting and the office of Councilmember Tom LaBonge will join members of the Windsor Square Street Lighting Committee to hear neighbors' concerns about night time lighting and to present ways to address these concerns.
